

Save Money!

Not only will I inspect and find any and all problems, in and around your home, I will educate you on how to avoid them and **save money!** I will show how you can do many free or inexpensive things in and around your home to upgrade its energy efficiency. I will give you maintenance advice on furnace, AC, water heater and appliances so they last longer and run more efficiently.

Ultimately a thorough inspection depends heavily on the individual inspector's own effort. I guarantee that I will give you my very best effort.

I will not leave the property until you are **100%** sure I have covered everything.
